# WHO WE ARE /

Geniserve Limited is a leading Consultancy firm which specializes in Data Centre & ICT Infrastructure Standards, Governance, Risk & Compliance and Capacity Building. With deep competency in design, build and certifications of Data Centre & Information Security services and Certifications, we help organization achieve relevant ICT certifications for their critical infrastructure through capacity building, Quality Assurance and Project Management. With combined experience of over 50 years in Information & Communication Technology (ICT) infrastructure, Geniserve Limited is able to advise on all areas of Data Centre and ICT infrastructure construction, operations, regulations and Governance.

## Our Vision /

To build a creative, competent and profitable world class Institution that will add value to our clients by advising, enabling and empowering them to continually improve their performance and stay competitive.

## Our Mission /

To pay attention to those distinguishing competencies and capabilities and bring our vast experience to bear in adding value to our clients. To adopt world class standards and global best practice in all our dealings while paying attention to the requirements of our local operating environment.

# Our Core Competencies /

We have core competence and hands on experience in the areas of Data Centre Tier Standards and Specifications, Telecommunications Industry Standards (TIA), Societal Security - Business Continuity Management System, Information Security management Systems, Quality Management Systems, Cloud Computing and Project Management. We also provide services such as networks designs and optimization, Optic fibre infrastructure and integrated site maintenance (ISM) services.

At Geniserve, we are structured and positioned to take the full responsibility of ICT infrastructure, providing end-to-end infrastructure development and services for the industry from regulatory down to making call! We also undertake managed services in both active and passive infrastructure components and provide advisory services where possible to assist our clients take the best option possible in the face of many possibilities.

In all that we do, utilize best practice industry standards to deliver feasible improvement initiatives that maximize the productivity of all resources in order to drive operational excellence and achieve sustainable and long-term growth to a broad range of industries and clients.

We do this through our highly trained and very experienced professionals. We work to create an environment where the ingenuity of every individual contribution to the overall team achievement is valued.

# WHAT WE DO

## **Data Centre & ICT Infrastructure Standards, Governance, Risk & Compliance**

- We help organization achieve relevant ICT certifications (such as ISO, TIA-942, Uptime Tier Standards etc) for their critical infrastructure through capacity building, Quality Assurance and Project Management.
- We conduct audit, identify gaps and offer advice on all areas of critical infrastructure certifications such as ISO 27001 (Information Security), ISO 9001:2015, ISO 14001:2015 (Environmental management system), ISO 45001 :2018 (Occupational health and safety) and ISO/IEC 27001:2013 (Information Security management system), ISO 22301 (Business Continuity Management)
- We conduct Data Centre audits in line with TIA-942 and Uptime® Tier Standards and provide advisory services on Operations, Maintenance and certifications of Data Centres.

## **Data Centre Designs, Operations & Maintenance Services**

- We design data centre and IT infrastructure using client requirements, international standards and local regulations
- We conduct Data Centre audits in line with TIA-942 and Uptime® standard and provide advisory services on Operations, Maintenance and certifications of Data Centres.

## **Project Management Services**

- We plan, execute, monitor and control projects to deliver all the project objectives within the agreed cost, time and quality.
- We also offer advisory services in project management including training, project planning, project monitoring & control, project acceptance.

# WHAT WE DO cont'd

## Project Management Services

- We plan, execute, monitor and control projects to deliver all the project objectives within the agreed cost, time and quality.
- We also offer advisory services in project management including training, project planning, project monitoring & control, project acceptance.

## Telecoms infrastructures & network optimization services

- We take client instructions / specifications to design optimal solutions that fit perfectly into existing network, implementing the most cost effective solutions.
- We do value engineering services balancing performance with cost and fitness for purpose.

## Energy and Safety Audit & Management

- We carry out extensive energy and safety audit at clients sites/buildings to ascertain their level of safety legal compliance with the aim of advising on how to comply and ensure safety of their employees, customers, visitors and their properties.
- Energy audit is carried out at clients' sites/buildings with aim of helping them to reduce their energy bill and also to help them manage their environmental carbon footprint.

# PRINCIPAL OFFICERS

## **Johnson Oyeleke,**

B.Sc (Elect Engr), PMP, ATD, MBA (Manchester)

• Managing Partner

Johnson Oyeleke is an experienced IT/Telecommunication Infrastructure professional with 22 years' experience in Data Center, Optics Fibre Networks, Project and General Management. He holds numerous degrees in Engineering, Management and Business, from the University of Lagos (BSc); the Lagos Business School (GMP) and the Manchester Business School (MBA). He has core competence in the areas Data Centre Designs, Building, Operations and Certifications. As Lead Consultant he has led the team that designed, built and developed all operational processes and procedures to the achievements of Uptime Tier III TCDD & TCCF, ISO 27001, ISO 9001, PCIDSS Certifications for numerous Data Centre in Nigeria and some other West Africa Countries. He had relevant professional trainings in Nigeria and abroad on multiple discipline and non-discipline sessions including Data Centre Design (DCD) & Data Centre Operations Management (DCOM), Fiber Optic Cable Training, Fundamentals of DWDM Technologies, CDMA TIA/EIA IS95-A/B, CMX 64 Opr. & Admin, CMX 64 Maintenance, Jambala Platform (O&M), Jambala HLR/AC OA&M, CDMA Data Transcript (MSC-BSC) among others.

He holds a Bachelor's degree in Electrical & Electronics Engineering from the University of Lagos (Nigeria) and a Masters of Business Administration (MBA) degree of the University of Manchester, United Kingdom. A corporate member of the Nigerian Society of Engineers (MNSE), a certified Project Management Professional (PMP) and a Certified Data Centre Expert (CDCE).

## **Engr Mr Lanre Samuel,**

• Partner – Training & Lead Auditor

ENGR. SAMUEL OLUFEMI is a Senior Partner at Geniserve Limited, He is vast with experience in Electro-Mechanical/Passive Telecommunication engineering in the last 20 years, which is not limited in his excellent quest in Telecommunication Managed Services Project Management in Nigeria.

Samuel Olufemi is an accredited PECB certified Lead Auditor for ISO 9001:2015 (Quality Management System), ISO 14001:2015 (Environmental management system), ISO 45001:2018 (Occupational health and safety) and ISO/IEC 27001:2013 (Information Security management system) while ISO 22301 Business Continuity Management is presently in view for certification.

He's also a certified Project Management Personnel with experiences ranging in organization re-engineering, quality management Services, Environmental Management system and occupational health and Safety management.

He is a rec

of engineers in Nigeria (COREN). With the vast experience in telecommunication infrastructure implementation ranging as stated below:

- I. Developing process models including maturity and continual improvement programs for Departments in the company.
- II. Drive the executions of strategic initiatives on which strategic objectives are anchored.
- III. Coordinate the process of cascading corporate objectives to all staff performance indicators using the Balanced Scorecard.

# OUR PARTNERS

# FEW OF OUR PAST JOBS

Below are few of our past projects showing our previous experience in various projects varies from Telecom to construction, electrical/mechanical-installation & maintenance, facility maintenance and management, fire prevention equipment-installation and maintenance

SN	Description of Site Maintenance works (ISM)	Period/Time	Client
1	Installation of Harris MegaStar® radios for Harris Stratex (Now Aviat Networks) for Airtel Projects	2010	Harris Stratex (Now Aviat Networks)
2	Integrated Site Maintenance (ISM) of 49 BTS sites for Airtel in Delta State	Apr 2010-> Jun 2012	Airtel /Interkel Networks Limited
3	Integrated Site Maintenance (ISM) of 67 BTS sites for Airtel in Delta	Jul 2012->Apr 2013	Airtel/Virgo Services Nig. Limited
4	Integrated Site Maintenance (ISM) of 31 BTS sites for Airtel in Delta State	Sep 2013->Mar 2016	Airtel /Interkel Networks Limited
5	Integrated Site Maintenance (ISM) of 28 BTS sites for Helios Towers in Edo State	Nov2010-> Mar2011	Helios Towers/Transtom Limited
6	Integrated Site Maintenance (ISM) of 42 BTS sites for Airtel in Ebonyi State	Jun 2011->Jul 2014	Airtel /Interkel Networks Limited
7	Integrated Site Maintenance (ISM) of 61 BTS sites for Airtel in Borno State	Aug 2012-> Date	Airtel /Interkel Networks Limited
8	Integrated Site Maintenance (ISM) of 59 BTS sites for Etisalat in Borno	Aug 2012-> 2016	Etisalat/Interkel Networks Limited
9	Integrated Site Maintenance (ISM) of 53 BTS sites for Airtel in Gombe State	Oct 2010 ->Date	Airtel/Hatfield consult Limited

S/N	Description of Project Works	Completion Date	Client
1	Installation of 4 SDH Microwavelinks for Airtel Nigeria	2010	Airtel /Aviat Networks
2	4 nosTelecom BTS site build for Airtel Nigeria in Plateau State	2011	Airtel /Aster Engineering
3	1 no Telecom BTS site build for Airtel Nigeria in Zamfara State	2011	Airtel /Aster Engineering
4	4 nosTelecom BTS site build for Airtel Nigeria in Imo State	2012	Airtel /Aster Engineering
5	Installations of In-building Communication systems for the Nigerian Baptist Convention, Ilupeju	2012	Nigerian Baptist Convention, Dugbe Ibadan
